LA BORIE

5-DAY COURSE CONTEMPORARY ART

Château de la Borie houses the gallery of the same name La Borie, which presents predominantly young, emerging, international artists. Here you can follow an inspiring contemporary art course that provides background information on recent and current developments in art.

The courses are given by owner/gallery owner Ardi Poels, art historian who is specialized in contemporary art. The contemporary art course focuses on observing and evaluating the art of today. Art trends of the past decades are analyzed and placed in a historical context. Also, attention is paid to exhibition structures such as museums, galleries and biennials, and to the contemporary art market.

After this week, you will know the latest trends, the world around the contemporary art and its leading players, and how to perceive and qualify a work of art.

The course is given for groups of a minimum of 6 and a maximum of 12 people. It is also possible to take a private course for one or two persons, composed in consultation.
