PERMACULTURE

2-day course

6 June + 17 July

15 August + 5 September

3 October + 28 November

art, nature & patrimony

LA BORiE

PERMACULTURE 2-day course

Permaculture is a powerful tool and nature is its model. In a few days, you will be able to understand the natural dynamics of your own garden, diagnose your soil and know how to start growing successfully all year round. Moreover, and perhaps most importantly, you will get all the keys to design your garden as a haven of biodiversity.

The course is given by Charles Cosneau -Taddei, permaculture trainer, and owner with Léontine Bonne of Bois de Fargues (Teussieu, Lot), where they set up a permaculture garden in terraces. He will share his knowledge and experience of permaculture gardening and equip you with the necessary skills to start your own vegetable garden.

Dates 2020:

June 6 + July 17

August 15 + September 5

October 3 + November 28

Price for two days: € 220, included lunches and drinks
